The Official Newsletter of Byzantium Novum
Issue #9 (May 2015)

Tradition tells us that the Emperor was tracing the boundaries of the city with a spear, when his courtiers became astonished by the magnitude of the new dimensions of the capital. "Lord," they asked, "how long will you keep going?" Constantine replied, "I shall keep going until the one who walks ahead of me stops." PRESIDENT OF THE SENATE

Greetings, citizens of Byzantium Novum!

This month is the 1685th anniversary of the founding of Constantinople by the Emperor Constantine as well as the 562nd anniversary of the fall of Constantinople to Mehmet and the Ottomans. It's a great month for the first issue of our restored newsletter for a restored Empire!

Not only have we survived the winter, we have also continued to add new citizens. We now have 527 citizens all around the world. We have one theme (with three provinces) and seven colonies with more local groups in the works. Our Internet presence on social media continues to grow as we are able to bring more information about Byzantium, both ancient and new, to the public.

Last year, we changed the Administrative Handbook to give me the authority to appoint patricians to deserving individuals but I have not taken advantage of it. It is my honor at this time to appoint the first two, who will be the co-principals. They are Anna of Constantinople and Publius Quinctius Petrus Augustinus, both of whom are busy in building our empire.

- Anna of Constantinople, *femme clarissimum, spatharokandidatia* and *hypátissa*, is Countess of Illinois and Magistrate of the Colony of Terra Draconis, which she founded, as well as Supervisor of Xenon, the medical group in the Chamberlaincy.

- Publius Quinctius Petrus Augustinus, *vir clarissimus, spatharokandidatos* and *hypátos*, is Count of Texas and Magistrate of the Colony of Nova Raska, as well as Provost of Chronicles in the Chancellery.

Baduila, our Illustrious Grand Chancellor, has taken the bull by the horns and restarted the *Basilica*. Our plan is to publish it four times a year, so for now on, this is where you will find my "State of the Empire" report to you as well as reports from the ministries. In the back of this newsletter you will find various rosters that I hope will be helpful for you.

MARCUS CASSIUS JULIANUS

President of the Senate of Byzantium Novum, etc.

FROM THE EDITOR

Baduila Chalkeus, to the readers of this newsletter, greetings.

You are reading the new version of *Basilica*, the newsletter of Byzantium Novum. I acknowledge that it is less informative and entertaining than its predecessor, particularly in cultural subjects, but I hope to return it to its ancient glory in the future. I am publishing it under the authority of the Chancellery to provide information to the citizens of the Empire and maintain a permanent public record of the actions of the Imperial government.

A special thanks to those who contributed to this newsletter either by providing articles or participating in the discussion that led to what you are reading now.

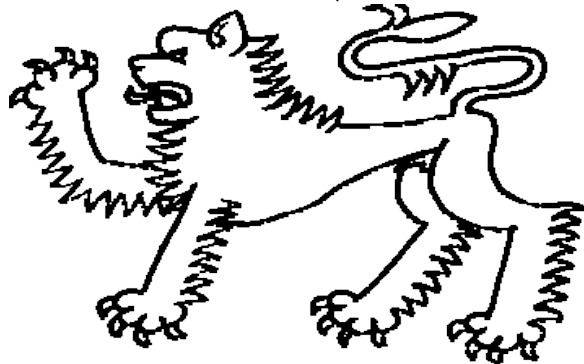

Following this portion of the newsletter you will find rosters of the Senate, governors, imperial agencies, and counts; a page of proposed badges for the imperial offices; the complete current roster of honors and dignities of the Empire; and a list of websites and mailing lists pertaining to Byzantium Novum. The rosters of senators, governors, imperial officers and counts as well as the list of websites will appear in every issue of this newsletter for your reference. If errors appear anywhere in these rosters or elsewhere in this newsletter, or if there are updates to them, please let me know so a correction/change can be made.

I am looking for a permanent editor for *Basilica*. If you have publishing experience and can commit to publishing four issues a year on schedule, please contact me.

Thank you for reading!

Byzantium Novum is a micro-nation dedicated to the rebirth of Byzantine culture and civilization which was formed to be a small, legitimate successor state to the Byzantine Empire. We exist as a micro-national sovereignty project, working to bring Byzantine civilization to life in the modern world as much as possible. Our goal is to establish a physical, symbolic and administrative world capital of 100 acres or more, where the Byzantine State may have a real-world existence and coordinate Byzantine interests around the world. For more information on Byzantium Novum, visit our website at <http://www.byzantiumnovum.org>.

It is the editor's intent to publish this newsletter in February (to observe our founding), May (to observe Byzantium Day), August (to observe the end of the Byzantine year) and November (to observe the Christmas Season).

The typeface used in *Basilica* is called Skia, and is based on ancient Greek fonts. It selected to be readable and historically accurate for our Empire.
